Chicken Recipes – Where Can I Find Chicken Recipes and Other Kinds of Barbecue Food?

I would like to continue the topic of barbecue meals. It's becoming really popular these days, so I think this topic can be really interesting. I would like to give you some information about tools used for barbecues, about some meals (especially chicken meals and chicken recipes), and about some additions, such as sauces or salads.

The first thing I would like to describe is corn. The corn from barbecue is very popular and a tasty appetizer in the United States of America. It's good to put a toothpick at the ends of the corn, so it will be easier to handle it.

The next thing (or things) that I want to describe are barbecue tools. You should remember about the cutlery of course (knife, fork etc). I think that a metal barbecue graticule can be useful (for example for fish).

Of course the most important part of a barbecue is meat. I prefer chicken meat. You can prepare it in many ways, because

there are many chicken recipes. Chicken meat is very tasty and delicate. It is also very cheap meat and it is healthy, so people with health problems can eat it. They can forget about heart diseases or a high cholesterol level in the blood when eating chicken. You can make a lot of chicken meals, such as chicken breast with spinach or chicken shish-kebab with banana-coconut sauce and many more dishes. As you can observe, there are lots of chicken recipes for barbecue.

I also want to add some information about things that are making barbecue food more tasty. These things are marinades made from oil, fresh herbs and garlic. Chicken meat is very soft, so you can put it in marinade for half an hour. If you prefer stakes, use herb butter. There are also other barbecue additions or appetizers such as figs (or other fruits such as bananas or peaches). I think that roasted potatoes are also a very tasty barbecue appetizer. You can eat them in salad as well (which is very tasty). Of course, don't forget about different sauces. You can prepare them yourself or buy some.

I think that the facts included in this article are the most important ones and that they can be very helpful for you. Remember them when you are preparing your barbecue. You should also remember chicken recipes for barbecues because they are

Low Fat Chicken Recipes You Can Make at Home

We've all had those wonderful moments at mealtime, where you're blissfully eating away at the most delicious bite of heaven on earth... you take another bite... mmm... and another.

Before you know it, you're scraping your plate clean, then licking it clean (sorry, Spot, none for you today), and a feeling arises from the pit of your stomach, and it's not from the dinner. You realize just ate something that's only going away if you park ten miles from the grocery store's front door. You can't easily work this off by "taking the stairs" at the office tomorrow. We all know that feeling, and I'm here to help you avoid it.

Now, I'm not here to tell you that you can't eat yummy food! You simply have to know how to plan what you want to eat, then turn it into something that you can devour guilt-free. There are countless ways to make a meal healthy, so let me point you in one direction to get started. We're going to explore low fat chicken recipes. I would like to share three scenarios of how to change your life, starting with changing your recipes.

1. You are a one-dish mess sergeant. You plan to bake your family a casserole tonight because the shepherd's pie leftovers are gone and enchiladas are in the Tupperware at your hubby's office. I love casseroles, so I can totally relate to this, but, we all know that they are infamous for being on the higher calorie end of the spectrum.

One of my favorite dishes is chicken enchiladas. This is a

tasty that most of us have tried, and I'll tell you how to make it into one of the low fat chicken recipes. Boil your chicken. You don't need any fat to do this. When you need to add flavor to the chicken, use double amounts of green chiles! (BTW, if you've never tasted green chiles, then stop reading this right now, Google "chicken enchilada recipe", and head off to the store. It is so worth it!) Finally, when you make the sauce, use fat free sour cream and low-fat cream soup. Now this is all assuming your recipe is similar to mine, but I think you get the idea. It's okay to deviate from the script, while still having the ease of the one-dish meal.

2. You are a crockpot momma. I am not. But, I have had my share of attempts at the crockpot, and here is my most successful recipe. First, you must use skiness, boneless chicken breast or turkey breast, or this is a lost cause. When you crockpot meat, it tastes so moist and juicy because the food is simmering in its own fat for hours and hours and hours. We all know this can't be good for our health. Here is the trick. Get a can of soda. Cola is best because I understand it is more acidic, and it is A-OK to be diet! So grab that diet soda or two and add it to your chicken in the crockpot. And last, add a flavor, like a bottle of salsa, some Season-All, some salt and pepper... almost anything. The soda will essentially

Recipes from The Weekend Chef (<http://theweekendchef.com>)

tenderize your meat, just like when you put acid (i.e. lemon juice or vinegar) in a marinade. So... give it a try... no fat necessary.

3. You are a restaurant critic.Or you'd like to think you are. We all have our favorites. I can think of my favorite ten right now, and I was tempted to visit all of them on my last trip to my hometown, but no... I held back. I wanted to be a good example to my sisters, and I taught them one of my latest discoveries. The Internet. Well, I didn't JUST discover this, but I told them what I had recently learned.

We have a favorite meal at a restaurant called Cafe Rio. They have a meal called the "Pork Barbacoa Tostada". I wanted to have it for breakfast, lunch and dinner... and snack. Needless to say, at our weekend party, I taught them how to make it. I had simply Googled a variety of words until I ran into the recipe for the pork. Lo and behold, this is where I had learned about the soda pop crockpot trick. We made the meat this way. The other unique taste in this meal is the dressing. I was able to find two recipes for it... one complex, and one simple. Of course, I used the simple one... why not? FYI, if you'd like to try it, you mix a bottle of ranch dressing (low cal or fat free in my modified version) with a bottle of green

salsa.

We were floored when we tasted it. It was perfect, and maybe even BETTER than the restaurant's version of the salad. Alas, we were in control of our portions, calories, music selection... everything that makes the restaurant experience awesome was now perfect. So, let me just remind you that starting your journey to good health with low fat chicken recipes is a great way to go. It is simple and exciting to know you have made your own weight loss success!

Tips For Cooking Chicken In The Oven

Oven-baked whole chicken is budget-friendly and an impressive party dish that requires very little work. You could serve

Recipes from The Weekend Chef (<http://theweekendchef.com>)

baked chicken for a reception dinner choice or at an engagement or bridal shower party. It is also a good all-purpose dish for both bridal partners to know once they enter married life. Follow these simple tips and your oven-cooked chicken will turn out perfectly every time.

*Prepare

If the chicken is frozen, thaw under cool running water for several hours, or ideally, thaw in the refrigerator for at least 24 hours. On cooking day, preheat the oven to 350 degrees and take the chicken out of the fridge. Place in the sink. Remove any wrappings and reach inside the cavity to pull out the neck, heart, and other organs that may be there. Wash all under cool running water and pat dry with paper towels. Place chicken on a plate and clean your hands and work surfaces immediately. Rub whole chicken with 2-3 tablespoons of olive oil and season with one of these combinations: poultry seasoning and black pepper; paprika, salt, and pepper; lemon-pepper seasoning and salt; oregano, basil, and garlic; rosemary and tarragon; or any seasoning blend you like.

*Bake

For beer-can chicken:

Open a fresh can of beer and drink (or pour out) about 3/4 of

Over 350,000 Free Food and 9,000 Drink Recipes

it. Holding the chicken in one hand, angle it slightly and ease the beer can into the chicken's cavity. Carefully stand the chicken up so that it is supported and upright on top of the can. Put can and chicken, standing up, onto a roasting pan or cast-iron skillet. Bake for 1.5 to 2 hours.

For roast chicken:

Cut up potatoes, carrots, and onions into 1-inch cubes. Place in the bottom of a roasting pan. Place chicken, breast-side up, on top of the bed of vegetables. Roast 1.5 to 2 hours.

For baked chicken:

Place chicken, breast side down, into a roasting pan. Bake in 350* oven for 60 minutes. Remove from oven and carefully turn the chicken breast side up and place back in the oven for at least 30 more minutes. This method will help the breast remain moist and tender.

*Test

For all methods, the chicken is done when the chicken registers 165 degrees on an internal meat thermometer at the deepest part of the breast and in the leg near the bone.

*Finish

Over 350,000 Free Food and 9,000 Drink Recipes

Remove chicken (and vegetables, if using) from roasting pan, and pour off all but 3 tablespoons of juices. Put roasting pan or cast-iron skillet on your stove and heat over medium-high heat. Pour 2 cups of wine, chicken broth, or water into pan and deglaze. Scrape bits of chicken off the bottom and sides of pan and season sauce with salt and pepper to taste. Cook the sauce at a simmer until it has reduced by at least half. Serve over chicken. Enjoy!

This method may take a little time to master, but once you've run through it a few times you will have mastered an easy method of cooking. Chicken may also be roasted in a crock pot or baked in a casserole, but there is nothing juicier and more flavorful than a chicken roasted the old-fashioned way in the oven.
