by the company, as well as the constant incorporation of new genetics from around the world. In fact, the seed stock is updated almost perpetually to ensure freshness of stock. The seeds are also selected very carefully on the basis of their germination rate, ripeness and size.

One of the greatest concerns of Dutch Passion is the taste of the seeds. They believe that a bio grown seed has more potential for flavor as compared to hydro pot. Of course, the latter growing option is more convenient to control and set up and the yield is also relatively greater than that of a bio pot or seeds that have been grown in the soil.

The feminized seeds offered by them are difficult to make and a lot of research has gone into the process, before they perfected it. This has also helped them discover strains that do not work well for feminization and identify methods by which the seeds can be grown to satisfaction.

The successfully feminized seeds of Dutch Passion now provide smokers and growers with many advantages. For starters, you can grow the plant in remote outdoor locations and not worry about having to come back and check for the growth of male plants. Growers may also count on increased yields, with

almost every seed planted yielding a female plant.

There are certain ways by which you can manipulate the seeds to grow female plants. As revealed by Dutch Passions feminizer testing program, there are certain measures you can take to ensure that your seed yields plants that are feminine. This includes providing more nitrogen and less potassium, shorter light cycles, low temperatures and high humidity and also greater soil moisture to the seed.

Seeds from Dutch Passion are also packaged extra carefully. The bag used to package the seeds has a special foil that can help it preserve its powers of germination for an extended period of time. The bags are professionally sealed as well and therefore, you can always be sure of the authenticity of the seeds.

So if you're looking for top quality seeds that have specifically been designed to enhance your smoking and growing pleasure, Dutch Passion has the right seeds for you.
