Diabetes Type 2 – A Diabetic Meal Plan Can Reverse Your Diabetes

Has your physicians told you or your family member that you have diabetes type 2? I know that this information was the worst news that you have heard in a long time, but just know that there is something that you can do to reverse diabetes. Diabetes is just not a disease of the pancreas but it will affect every part of your body if the blood sugar is not under control. The complications of diabetes can be blindness, hypertension, stroke and even heart attack.

A diabetic diet is the most effective treatment for diabetes. If you change the way you eat then you can lose weight, reduce your blood sugar level and may even reverse this diabetes.

A diabetic diet will consist of a balance of carbohydrates, protein and fats. There is lot of discussion on how much carbohydrates you should have but most nutritionist would agree that the carbohydrates that you should eat will be a low glycemic index (or a carbohydrate that will not raise your blood sugar level) such as having for breakfast a piece of whole wheat toast vs. a doughnut.

Diabetics

A diabetic food list is not like the grocery list prepared by someone to cater the kitchen needs. The right person to suggest such foods is the physician who can diagnose the case and prepare the list of diabetic foods for type 2 diabetics. Food is prime that tops the human need for energy. People know that foods can do wonders in curing certain diseases. However when it comes to diabetes, they fail to develop the right concept in choosing proper diet to help reduce blood sugar. So if you are a diabetic, you ought to be careful in choosing diabetic foods to eat whatever medication you are taking. The right choice of foods will speed up to lower the risks of diabetes.

Unfortunately, consuming unlimited volumes of whatever one feels to have aggravates the diabetic condition. You can eat whatever you want, but you're to be within bounds on making better choices of foods for diabetes and avoiding some treats in volumes. There are lots of things to care when choosing the right type of diabetic foods to serve you to the need. You should keep close watch on what are the diets that really help you control blood sugar. However, I'm pleased to give you a simple and short list of diabetic foods for type 2 diabetes so that you are benefited anyway. Just spend a few minutes to have a glance of the following small list of diabetic foods.

Vegetables: You can consume vegetables in plenty and as much as you like. If the vegetables you choose to eat are fresh and green, the benefits will be more than what you can have from stored varieties. You have in this list Spinach, black beans, cabbage, etc. Potatoes should be excluded as they can give negative results in controlling blood glucose.

Fruits: Fruits have wonderful medicinal effects for diabetics when they eat just to the need. It's bad to take for stomach filling but can be justified if small servings are enjoyed by type 2 diabetics. There is no allowance for juices and fruits from freezers since they have no place in the list of diabetic foods to beat diabetes.

Grains: Grains are working well if they are whole and not broken. Wheat and oats are the best of diabetic foods to eat. Don't get to bread daily but it may be something special when you are a diabetic of type 2.

With warning symptoms of diabetes, controlling diabetes is an art with diabetes foods to eat AND diabetes foods to avoid.
