

Vegetarian Diets Benefits

Vegetarian diets can help protect your heart. Many vegetarians eat nuts as a form of protein, and these nuts contain healthy fats called omega fats. Omega-3 and omega-6 both help the body reduce cholesterol, and work to unclog arteries. You know that weight loss is an industry. A money-making industry with many claims to make: Claims of weight loss pills, herbs and juices. Claims of exercise machines and exercise programmes. Claims of high-fat, no fat or lean diets. Diets high in fibre are associated with lower rates of colon cancer and coronary artery disease than diets low in fiber. If you have diabetes, you can better control your blood sugar by eating a diet that's high in fiber, too.

Today, most people complain of high blood pressure and elevated cholesterol levels. A diet rich in seeds, legume, whole grains and nuts can easily bring these down to a great extent. Plus being a vegetarian can not only improve your digestive system, but also makes it function more efficiently. Ensure a properly balanced diet by having all four main food groups within a vegetarian diet, namely beans, nuts and seeds; grains; dairy products; and fruits and vegetables. Include something from each group in your daily vegetarian diet to get all the nutrients you need.

The advantage that vegetarians have over non vegetarian dieters is the way that we study food labels carefully. By reading labels to ensure there are no animal products, we are more able to notice added sugar, salt and hidden fats, and can therefore avoid them.
